Registration	REG_TC_006	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate password length	Registration page is accessible	1. Enter passwords shorter than the minimum length (e.g., 8 characters). 2. Click "Continue."	Password: Pass1	Error message like "Password must be at least 8 characters long" is displayed.	Error message displayed - Password must contain at least one symbol.
Registration	REG_TC_007	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate mismatched passwords	Registration page is accessible	1. Enter a valid password in the Password field. 2. Enter a different password in the Confirm Password field. 3. Click "Continue."	Password: Password@123, Confirm Password: Pass@1234	Error message like "Passwords do not match" is displayed.	Error message is displayed - Password do not match
Registration	REG_TC_008	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate maximum length for email field	Registration page is accessible	1. Enter an email address exceeding the maximum allowed length (e.g., 256 characters). 2. Click "Continue."	Long Email: a...@example.com (256 characters)	Error message like "Email length exceeded" is displayed, or input is truncated.	No error message Displayed user is able to proceed and landed on next screen Length validations missing
Registration	REG_TC_009	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Verify password visibility toggle functionality	Registration page is accessible	1. Enter a password in the Password field. 2. Click the visibility toggle icon. 3. Verify the password is displayed. 4. Click again to hide the password.	Password: Password@123	Password toggles correctly between visible and hidden states.	Password toggles working as expected
Registration	REG_TC_010	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Verify invalid email and password combination	Registration page is accessible	1. Enter invalid data in both Email and Password fields. 2. Click the "Continue" button.	Email: user@domain, Password: pass	Error messages are displayed for both invalid email and password fields.	Error message displayed - Invalid email format Password must contain at least one symbol
Registration	REG_TC_011	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Verify session creation after successful registration	Valid data is provided	1. Complete the registration with valid data. 2. Verify the session is created and persists across app reopen.	Email: user@example.com, Password: Password@123	User session persists until manual logout or session expiry.	Reopen the app manual logout is needed(no idea session expiry time what exactly it is as per requirement)
Registration	REG_TC_012	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Verify "Continue with Google" login	Registration page is accessible	1. Click the "Continue with Google" button. 2. Authenticate using valid Google credentials. 3. Verify the user is redirected to the next page.	Google account credentials	User is successfully authenticated and redirected.	User is successfully authenticated and redirected.
Registration	REG_TC_013	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate error message for already registered email	Email is already registered	1. Enter an email that is already registered. 2. Enter valid passwords. 3. Click "Continue."	Email: existinguser@example.com, Password: Password@123	Error message like "This email is already registered" is displayed, and the user cannot proceed.	User is able to sign-up with already registered email error message not Displayed
Registration	REG_TC_014	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate registration with special characters in email	Registration page is accessible	1. Enter an email address with special characters before @ (e.g., user+test@example.com). 2. Click "Continue."	Email: user+test@example.com	Email is accepted, and the user can proceed.	User is not able to proceed error displayed - Invalid email format
Registration	REG_TC_015	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Verify app behavior after registration page timeout	Registration page is idle for 15 minutes	1. Open the registration page. 2. Leave the page idle for 15 minutes. 3. Attempt to proceed with registration.	N/A	Session times out, and the user is redirected to the login page or prompted to reload.	Session not expire user is able to add details and able to proceed
Login Function	LP_TC_01	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Verify the login page loads successfully	Application should be installed and launched	1. Launch the application 2. Navigate to the Login Page	N/A	The Login page should load with all UI elements visible (Email, Password fields, buttons, etc.)	All UI elements are visible
Login Function	LP_TC_02	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate error message for invalid email format	User is on the Login Page	1. Enter an invalid email in the Email field (e.g., "testemail.com") 2. Enter a valid password 3. Click on "Log In"	Email: testemail.com Password: Test@123	An error message should be displayed, e.g., "Invalid email format. Please enter a valid email address."	Error displayed - You have entered an invalid email address!
Login Function	LP_TC_03	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate login functionality with valid credentials	User is on the Login Page Valid user credentials exist	1. Enter valid email and password 2. Click on "Log In"	Email: user@example.com Password: ValidPassword123	User should successfully log in and navigate to the homepage	User is able to proceed and landed on verification page
Login Function	LP_TC_04	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Validate error message for incorrect credentials	User is on the Login Page	1. Enter a valid email 2. Enter an incorrect password 3. Click on "Log In"	Email: user@example.com Password: WrongPassword123	An error message should be displayed, e.g., "Invalid email or password. Please try again."	Error displayed - Username or password is incorrect!
Login Function	LP_TC_05	Device Details: - Device Model: Realme 7 Pro - Android Version: 12 - Realme UI Version: V3.0	Verify the "Forgot Password" functionality	User is on the Login Page	1. Click on "Forgot Password?" 2. Enter a registered email 3. Submit the form	Email: user@example.com	A confirmation should be shown, e.g., "Password reset link sent to your registered email."	by entering email No confirmation popup displayed and user landed on login page

Login UI	LP_TC_06	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Validate visibility of password toggle button	User is on the Login Page	1. Verify the presence of the eye icon next to the Password field 2. Click the eye icon to toggle password visibility	N/A	The password should toggle between hidden and visible states	Password is displayed proper on both state
Security	LP_TC_09	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Validate session expiration after logout	User should be logged in	1. Log in with valid credentials 2. Logout 3. Try navigating back to the homepage using the browser's back button	N/A	The user should not be able to access the homepage. A login prompt should appear.	User is not able to use homepage.
Usability	LP_TC_12	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify "Sign Up" navigation link functionality	User is on the Login Page	1. Click on the "Sign up" link	N/A	The user should be navigated to the registration page	User is navigated to create account page but "Sign up" should be hyperlinked
Add Recipient	AR_TC_001	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify UI elements on the Add Recipient screen	User is logged into the app and on the Recipients screen	1. Open the app 2. Navigate to "Recipients" 3. Click on "Add Recipient"	-	All input fields and buttons should be visible properly	All Input fields are visible
Add Recipient	AR_TC_002	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify adding a recipient with valid details	User is logged in and on the Add Recipient screen	1. Enter a valid nickname 2. Enter a valid IFSC code 3. Enter a valid bank account number 4. Click "Add Recipient"	Nickname: John, IFSC: KKBK0001234, Account No: 1234567890	Recipient should be added successfully and displayed in the recipient list	Recipient added and displayed on the recipient list
Add Recipient	AR_TC_003	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify that recipient nickname is mandatory	User is on the Add Recipient screen	1. Leave the nickname field empty 2. Enter valid IFSC and account number 3. Click "Add Recipient"	-	Error message should be displayed for the nickname field	Error displayed - Please enter recipient nick name
Add Recipient	AR_TC_004	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify that IFSC code is mandatory	User is on the Add Recipient screen	1. Enter a valid nickname 2. Leave IFSC field empty 3. Enter a valid account number 4. Click "Add Recipient"	-	Error message should be displayed for the IFSC field	Error displayed -Please enter IFSC code
Add Recipient	AR_TC_005	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify that bank account number is mandatory	User is on the Add Recipient screen	1. Enter a valid nickname 2. Enter valid IFSC 3. Leave account number empty 4. Click "Add Recipient"	-	Error message should be displayed for the bank account number field	Error displayed - Please enter bank account number
Add Recipient	AR_TC_006	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify IFSC code format validation	User is on the Add Recipient screen	1. Enter a valid nickname 2. Enter an invalid IFSC code (e.g., ABCD123456) 3. Enter a valid account number 4. Click "Add Recipient"	IFSC: ABCD123456	Error message should be displayed for invalid IFSC format	Error not present screen is not responsive by clicking on Add Recipient
Add Recipient	AR_TC_007	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify bank account number format validation	User is on the Add Recipient screen	1. Enter a valid nickname 2. Enter a valid IFSC code 3. Enter an invalid bank account number (e.g., 123) 4. Click "Add Recipient"	Account No: 123	Error message should be displayed for invalid account number	Error not present screen is not responsive by clicking on Add Recipient
Add Recipient	AR_TC_008	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify that duplicate recipient cannot be added	User has already added a recipient with the same details	1. Try to add the same recipient again	Nickname: John, IFSC: KKBK0001234, Account No: 1234567890	Application should prevent duplicate recipient addition	Error not present screen is not responsive by clicking on Add Recipient
Add Recipient	AR_TC_009	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify error message for unsupported NRE accounts	User is on the Add Recipient screen	1. Enter a valid nickname 2. Enter an NRE account number 3. Click "Add Recipient"	NRE Account No: 9876543210	Error message should be displayed stating NRE accounts are not supported	Error not present screen is not responsive by clicking on Add Recipient button loading for 2 sec
Add Recipient	AR_TC_010	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify cancel functionality	User is on the Add Recipient screen	1. Click "Add Recipient" 2. Enter details 3. Click back button	-	The recipient should not be added and the user should be redirected to the recipient list	User successfully redirect to recipient screen
Add Recipient	AR_TC_011	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify successful recipient addition displays in list	User has added a valid recipient	1. Navigate back to the recipient list	-	The added recipient should be visible in the list	Added user is visible in the list
Add Recipient	AR_TC_013	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify responsiveness on different screen sizes	User is using different devices	1. Open the "Add Recipient" screen on different devices	-	UI should be properly aligned on all screens	UI is Proper little bit difference is there but it asper screen resolution
Add Recipient	AR_TC_014	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify app behavior with slow internet	User has a slow internet connection	1. Simulate slow internet 2. Try adding a recipient	-	Appropriate loading indication or retry option should be available	No retry button Still Add Recipient button is visible
Add Recipient	AR_TC_015	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify app behavior with no internet	User has no internet connection	1. Turn off internet 2. Try adding a recipient	-	Proper error message should be displayed	No error message present only Add Recipient button is in loading state
Logout	LO_001	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify "Logout" button is visible on the profile screen	User is logged in	Navigate to "Profile" screen	N/A	"Logout" button should be visible	Logout button is visible
Logout	LO_002	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify user can successfully log out	User is on the "Profile" screen	Click on "Logout" button	N/A	User should be logged out and redirected to the login screen	User is redirected to the Login Screen
Logout	LO_003	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify logout confirmation prompt	User is on the "Profile" screen	Click on "Logout" button	N/A	A confirmation prompt should appear asking the user to confirm logout	confirmation prompt appear by clicking on Logout
Logout	LO_005	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify user can log in again after logging out	User has logged out	Try logging in again with valid credentials	Valid credentials	User should be able to log in successfully	User is able to login

Logout	LO_006	Device Details: - Device Model:Realme 7 Pro - Android Version:12 - Realme UI Version: V3.0	Verify app does not crash after logging out	User has logged out	Observe app behavior post-logout	N/A	App should function normally and return to login screen	App behaviour is noramal
